

Excellent land with rustic finca project in the Mallorcan countryside and very close to beaches

Price

390.000 €

Location

Manacor / Mallorca Northeast / Afueras

Description

The Levante region, in the eastern part of Mallorca, is a region in which we find from beautiful coves, caves and fishing ports on the coast to mountainous areas in the mountains passing through beautiful natural parks.

Within this natural environment and just 6 km from the beach we find the excellent opportunity to invest in a rustic property that has an approximate 14,600 m² and already drawn up project of a Moderna Mediterranean style house with 240 m² and spectacular views to all the natural green that surrounds it. It also has the possibility of mapping out a landscaping project to create fantastic gardens that accompany the exteriors of the farm.

The project is waiting for a license that has already been submitted.

“An exceptional opportunity to live in a quiet and natural environment with the sea at a short distance”
