This fantastic seafront house reform project is located in a beautiful environment where calm reigns, in the privileged area of Molinar-Portixol, just a few minutes from the centre of Palma. It is an area that still conserves its charm of an old fishermen's neighbourhood with small houses, many of them converted into cafés and wonderful restaurants where you can enjoy the best gastronomy, cocktails and open-air cafés. It also has a fantastic promenade where you can do sport and quiet beaches.

The house is privilegedly situated on the second line of the sea with views of the Mediterranean and just a few steps from the beach. It has a surface area of 309 m² and the project corresponds to a careful renovation that will offer all the comforts of today with the best qualities and finishes within a two-storey design with high ceilings that is committed to contemporary interiors with continuous spaces and durable materials. It will have four double bedrooms and five bathrooms.

On the first floor there is a large open-plan living room, dining room and Gaggenau and Bora kitchen and the first floor will be occupied by the sleeping area with the bedrooms. The whole house is crowned by a large solarium of 100 m² with a private swimming pool, living room and dining area with outdoor kitchen, a place where the sea views and the natural beauty of this magnificent environment are enhanced.
